

Casola 2010 is II EuroSpeleo Image'In Film Festival

Euro Speleo Project 2010

The meeting will take place from 29-10 till November the first 2010.

In Casola Valsenio, during the international caver meeting, there'll be the second «EuroSpeleo IMAGE'IN Film Festival". There will be an important contest for speleo videoclips (30"-180"), a good way for offering a "glance of caving" in social networks. There will also be a "Photostory" contest.. Maximum five photos (30x40 cm) for telling a story, or showing a caving emotion. And much more.. open video & photo exhibition, meeting with the authors. International jury and interesting prizes. We are preparing exact rules. Be ready for the contest!

The Casola 2010 international caver meeting will be a really big event, with a lot of cavers coming from Italy, Europe and all over the world. The meeting will take place from 29-10 till November the first 2010.

In 2006 over 3000 cavers reached Casola Valsenio for sharing experiences and ideas, for showing reportages, exhibit technical equipments and living a friendly time. The "focus" of 2010 meeting concerns the new ways for communicating caves and caving to "not caving people".

Casola Valsenio is in the Province of Ravenna, in the North of Italy. It's a nice village, near very particular gypsum hills in the "Parco Regionale della Vena del Gesso Romagnola". There will be interesting guided tours in the caves and all around the karst area. You can easily reach Casola Valsenio by car from A1 (exit Faenza or Imola, Castebolognese and then Casola V). Bologna airport is only 50 km far from the meeting. Train (till Castelbolognese) and bus are available. More informations next on www.casola2010.it! You can also click "Contatti" & send a mail to Casola Info.
